

*Murrplastik MP 420 EVOCHAIN® energy chain has been awarded winners of the German Innovation Award 2020 in the category of Machines & Engineering.*

The MP 420 Evochain® type Evoline® developed by Murrplastik Systemtechnik combines four innovations together with the proved qualities of its previous energy chains. The powerful and unique system solution is outstanding in terms of ease of assembly, durability and noise reduction.

The innovative features include:

- Evolock®: Time-saving and assembly friendly crossbar lock system (can be opened from outside and inside, as well as in the guide channel)
- Evorack®: Can be opened on both sides, stable and time-saving shelf support system (can be opened without tools)
- Evocontrol®: Gliding shoe with wear control system to extend the service life and to reduce the control effort
- Evoshox®: Wear-free, replaceable damping shoe (external damper)
